Getting Mobile Banking is Easy!

If you're already a Middlesex online customer, all you have to do is sign up and you can do most of the banking transactions you do on your computer with your mobile phone for free.*

With a smart phone, you can check balances, view recent transactions, transfer funds, pay bills, and easily find ATM and branch locations. Text Banking allows you to do simple transactions – fast – like checking balances, viewing recent transactions, and transferring funds with any mobile phone.

To sign up, just log into online banking, click on “Other Services”, and follow the Mobile Banking prompts. Once you've registered,

*Check with your wireless carrier for fees that may apply.

iPhone®, iPad®, Android® and Blackberry® device users can also download the Middlesex Mobile Banking App.

If you're not an online banking customer, you can still get Text Banking to do your banking using any mobile phone. Just call our Customer Information Center at **877-463-6287**, and they'll sign you up right over the phone.

Anyone with a mobile phone can use our text banking services. Keep this card in your wallet and text banking is available anytime you want it.

If you can send a text message, you can stay in control of your banking. We'll send you a text message right back with your up-to-date account details.

Text 469-228 with one of these commands:

- BAL to view balances for all eligible accounts
- TRAN for recent transactions followed by account identifier (nickname)
- XFER to transfer money between Middlesex accounts

Example: Transfer <amount> From <from account identifier> To <to account identifier> XFER 10.00 From savings To family

- HELP ALL for a list of commands and our phone number
- STOP to opt out
